

Dear Colleagues,

We have put together some example pricing bundles so you can get some idea of costings for some common procedures. Please note that these are not currently fixed prices as some consumable prices are not known and fluctuate. Some lab fees may also vary depending on the case. They do give an average price for most procedures that can be passed on to clients but for any individual cases you are welcome to contact us at [hello@grantavets.co.uk](mailto:hello@grantavets.co.uk) for further information.

<b>Procedures</b>	<b>Bundle cost inclusive of VAT (including consultation, imaging if indicated, surgery, hospitalisation, some drugs)</b>
