

Price list for estimates (please note wherever possible we do not repeat tests that have already been undertaken recently by the referring practice, thereby helping to reduce costs where possible, but the decision to perform tests or dispense medication depends on the specific circumstances of each case and will always be explained and discussed with the owner/carer of the animal)

The price is inclusive of VAT and when referred to bundles (*) it includes consultation, hospitalisation (1-2 days based on the procedure), surgery/imaging as indicated, fluid therapy, anaesthesia and sedation).

Procedure	Price
Consultation in hours	276
Emergency consultation in hours	359
Out of hours emergency consultation	417
BOAS	
RFG	64
BOAS assessment (plethysmography, functional grading)	154
Uncomplicated BOAS without CT (including rhinoscopy and plethysmography)*	3850
Uncomplicated BOAS with CT (including rhinoscopy and plethysmography)*	4800
MEDICINE/ONCOLOGY	
Endoscopic gastric foreign body removal (incl consult, GA, blood, 2 days hospitalisation)	2000-2700
Anaemia investigation (consult, bloods, sedation, X rays, ultrasounds, hospitalisation)	2000-3000
Endoscopic oesophageal foreign body removal in hours (incl consult, GA, blood, 2 days hospitalisation)	2140
Emergency endoscopic oesophageal foreign body removal out of hours (incl consult, GA, blood, 2 days hospitalisation)	2550
Vomiting investigation (consult, hospitalisation, blood testing, GA, ultrasounds, upper GI scoping and biopsy)	2600-3200
Cough investigation (consult, blood, GA, X rays/CT , bronchoscopy)	2600-3200

Procedure	Price
Diarrhoea investigation (consult, hospitalisation, blood testing, GA, ultrasounds, preparation, lower GI scoping and biopsy)	2600-3200
Combined Upper and lower GI investigation (scope, faecal and blood tests, hospitalisation, range)	3200-4400
Pyothorax - medical management (incl. CT and hospitalisation, excluding drugs, blood testing)	5700-7500
NEUROLOGY	
BAER testing (consult, day hospitalisation, testing) - we do not certificate for breeding purposes	680
BAER testing under sedation (consult, day hospitalisation, GA testing)- we do not certificate for breeding purposes	750
Epilepsy work up (consult, hospitalisation, GA, MRI, spinal tap, blood tests)*	3000-3300
Spinal surgery, in hours, uncomplicated, with CT (excluding drugs and blood testing)*	5100
Spinal surgery, in hours, uncomplicated, with MRI (excluding drugs and blood testing)*	5700
Emergency spinal surgery, out of hours, uncomplicated, with CT (excluding drugs and blood testing)*	6650
SOFT TISSUE SURGERY	
Neutering (celiotomy or laparoscopic, incl. cryptorchid)*	1100
Laparoscopic biopsy (internal referral, excluding histopathology)*	2650
Uncomplicated laryngeal tie back*	3400
Unilateral TECA without CT*	3500
Cutaneous mass (neoplasia) excision requiring reconstruction, without CT/blood testing*	3650
Anal gland tumour removal (including US and blood, no CT)*	3800
Pyothorax - surgical management (incl. CT, hospitalisation, chest drain placement, thoracic lavage, surgery, excluding drugs, blood testing)	4000-5500
Unilateral TECA with CT*	4700
Unilateral ventral bulla osteotomy with CT*	4850

Procedure	Price
Standard abdominal exploration (e.g. mass or foreign body, including blood and ultrasounds)*	5000
Mandibulectomy (rostral) with CT*	5600
Cholecystectomy - Elective (estimate range: without or with blood testing and ultrasound)*	5000-5900
Cutaneous mass (neoplasia) excision requiring reconstruction, excluding blood testing, with CT*	5400
Anal gland tumour removal (with CT)*	5600
Bilateral TECA with CT*	6000
Maxillectomy (rostral, central) with CT*	6550
Septic peritonitis (in hours)*	7500-8500
Septic peritonitis (emergency OOH)*	7700-9800
ORTHOPAEDICS	
Postoperative recheck (consult, day hospitalisation, sedation, X rays)	540
Orthopaedic work up (in hours consult, day hospitalisation, sedation, with X rays- with CT)	1100-1900
Calcaneal tendon surgery	3000
Femoral head and neck excision	3500
Unilateral elbow arthroscopy (without-with CT)	3600-4600
Physeal fracture repair	3800
Patella luxation surgery dog (without - with CT)	3800-5000
Hip luxation surgical reduction (toggle)	3900
Patella surgery cat	3900
Fracture repair	4000
Unilateral TPLO (dogs less 40kg)	4000
Bilateral elbow arthroscopy (without-with CT)	4100-5100

Procedure	Price
Pancarpal arthrodesis (excluding implant and graft)	4400
Partial tarsal arthrodesis (excluding implant and graft)	4400
Unilateral UOP with arthroscopy (with CT)	4300
Pantarsal arthrodesis (excluding implant and graft)	4700
Unilateral HIF screw placement (with CT)	4700
Fracture repair, complex (without - with CT)	5200-6200
Bilateral HIF screw placement	5300
Bilateral TPLO	5800
Angular limb deformity diagnosis and surgical correction	8000-10000
