

Price list for estimates accurate as of April 2026 (please note wherever possible we do not repeat tests that have already been undertaken recently by the referring practice, thereby helping to reduce costs where possible, but the decision to perform tests or dispense medication depends on the specific circumstances of each case and will always be explained and discussed with the owner/carer of the animal)

The price is inclusive of VAT and when referred to bundles (\*) it includes consultation, hospitalisation (1-2 days based on the procedure), surgery/imaging as indicated, fluid therapy, anaesthesia and sedation).

<b>Procedure</b>	<b>Price</b>
Consultation in hours	276
Emergency consultation in hours	359
Out of hours emergency consultation	417
